

As we start to wind down this season, plans are falling into place for some events for 2025. By the time you read this, we may have already enjoyed the Saturday tour to the Coke Museum and Yard of Ale restaurant. Don't forget to contact Jerry Ptak to let him know you are coming to the November meeting. There is no sign-up sheet and it doesn't cost anything for our first indoor event, we just want to make sure that Lynelle has enough treats for everyone as this should be well attended. I am looking forward to getting a lot of good info and advice that night.

In the these are the larger events are of the event. Activity and since the for the club Party & the wonderful

members will interested in talk to any have. Being this great will accept time since we might have events with throw your hat in the ring.

other news, the board discuss the Christmas Party and Installation Banquet. Since the board determined that two premier events of the year, they have agreed to a subsidy for members. If you don't already know, most subsidized for members and guest pay the actual cost That is one of the benefits of club membership. Chairs work hard to give us the best price on events car show is or only real "money maker", this is a way to give back to its active members. Both the Christmas Installation Banquet are filled with fun, good food and people, so be sure to register for these events.

Again, it is that time of year when a couple of board be leaving us. We will be looking for persons coming "on board". If you have any interest, you can board member to answer any questions you might on the board is not a difficult job, and is helps to keep club going. We have a couple of people interested, but more nominations if they come in. It has been a loong had an election, and if we get enough interest, we just one again. I will be bringing this up at the next two the November indoor meeting being the final time to

Just to keep you informed, Chuck Weimer is pursuing an alternate venue for the car show for next year. He will not be able to make any firm decisions just yet, but early indications are we may be at a new location. I am sure that will please some people. If things don't work out, we may be at the same location as this past year. We will update you with further details if they become available.

A big thank you goes to Ken Knoll & Mike Mesi for planning the run to the New York Power Vista. We started out with a nice sunny ride to Lewiston. Once there we meet a tour guide who explained some of the structures we were looking at as we crossed over a walkway to the interactive displays. She then let us loose to "play". Most of the gang had some fun with registering our badges so that we could get a picture of ourselves to stick on the badge. I think everyone saw the movie narrated by a drop of water. If you missed it, you missed feeling his long ride as well as being touched by some of his friends. One of the many displays showed how a lot of men had to scale down the side of the gorge to aid in the construction of the power plant. I wonder how many of our members tried their hand at "rock climbing". I did, and I have a picture to prove it. After testing out all the exhibits we headed to the Lockport Locks for another fine meal. Everyone should have had fun and full tummies by the end of the day.

A number of LER members showed up for the Elderwood Cruise on the Boulevard, where Ray Noonan is currently. It was a warm evening with music, refreshments and lots of reminiscing. A lot of chairs were set up in the courtyard so quite a few of the residences were enjoying the warmth, the tunes and the cars.
