LER EVENTS FOR 2020

All current events have been postponed until further notice. Stay tuned for further updates.

*This is a tentative schedule. The dates are subject to change, so check this list monthly for more information and possible changes.

All material and want ads must be submitted to the editor by the 20th of the previous month that material is to appear.

Permission is hereby granted to other club publications to reprint material from "The Sidelight" provided that credit is given. All phone numbers listed in the Sidelight are area code 716 unless otherwise stated.

ON THE COVER

Little story about my second dream car. The first 1976 Trans Am I wanted for whatever reason it did not come true. So, 43 years later, while watching EBAY, Mecum, and finally watching Barrett Jackson, I see this car being described, and there it was. The car itself was stunning, the color and all. It was completely restored, with 3999 miles currently showing. It is beautifully restored, with matching numbers, 403 C.I. engine, automatic transmission, T-top, power window and locks, factory AC. It is Candy Apple Red with Camel vinyl interior. I placed a phone bid from home, and get a call later saying that the car was mine. I made arrangements for the shipping in late summer. And now, just waiting for the right time to start enjoying and driving it.

Walter & Sue Osuch

PRESIDENT'S MESSAGE

I never thought this would happen. It looks like we will be cancelling most of our outdoor functions for the foreseeable future. As of today, 04/29, the Board along with the Town of Elma will cancel our car show for this year. Even if everything is "open" by then, will people want to come out and congregate together? Our plan now would be to just shift the order for the dash plaques and trophy's to next year. Both our show sponsors have paid the club, so I have asked both Dan Gernatt and West-Herr if we can just "shift" those funds for next year's show and they have both agreed! THANK YOU! The only cost our club will incur is the cost of printing up the car show flyers we already have done. If we will not be doing any outdoor functions the club subsidy, \$5.00 per member per function, will be saved and offset the printing of the flyers. It is not the most ideal situation but it's what we can do.

Our Board meetings for May and June will either be held by email or if we can get everyone together on ZOOM, through our cell phones or computers we will try

From the Editor's Desk

I don't normally have a column (although I should), but I don't always have the space. I would rather add a column by a member, or some other tidbit I find more interesting than to add my opinions but since I have the space....

A few weeks ago, I was thinking, "Gee, I would really like to take my birthday off". For those of you attended our last "official" meeting, you know it was in the middle of March. I never dreamed I would get that day and sooo many more off after that. I wonder if there will be anything left of the school year. I feel really bad for the high school seniors this year since Prom and Graduation are a rite of passage for them into true adulthood. Even if the rest of the school year is gone, I do hope seniors will be able to at least have some kind of celebration and ceremony.

As I sit here putting together with what little I have for the newsletter, I wonder what day it is. And looking at

that. With most functions cancelled there really isn't any reason to get together anyways, as email seems to be working. We may try to get together in July in my backyard or another Board member to have some kind or normalcy. I have noticed that a bunch of National Car shows/Auctions have been cancelled, some AACA meets, the Buick Club National, Pebble Beach, etc...

I hope everyone stays safe and can at least get your cars out for a drive on a nice day. We as a club may also at least try to have a tour that we can all come to on one of our usual Sunday's. We are still discussing this. Start out at a parking lot and drive to a park or place of interest all with still staying in our cars? We will keep you posted.

One other note to the Past Presidents of our club, we normally get together in the Spring and Fall for a nice dinner, this will be cancelled until at least the Fall where hopefully things might be back to some kind of "normal".

Till next time....

Tim

the weather, it is either sunny, windy, rainy or snowing and sometimes all in the same day! It may not have been the best start to our season, weather wise anyway.

I usually print some of the more popular cruise nights in this issue, but since everything is so up in the air, I do not want to contribute to any bootleg gatherings. Hopefully as things begin to ease up, we can salvage a little bit of our summer. Instead of running a page of our upcoming event, I have opted to highlight two of our members who turned their efforts to helping the crusade. Way to go, Ladies! If there are any others out there doing something to be a "HERO", I would like to put that in print.

While doing some cleaning (like everyone else, since that is about all you can do being home this long) I came across some old Sidelights. I selected a few items to keep the mind in gear and have a laugh, too. Hope you enjoy the reruns.

Valerie

2

ACTIVITIES REPORT

Please remember to sign up early for these events and to treat your club mates with respect and consideration.

Please be advised that all upcoming events are pending cancellation due to the current affairs with the Coronavirus. Everyone's health and well-being are of most importance. Please stay safe and take care.

This event was cancelled. April 19th, this will be our annual presentation of the past year in review hosted by Lon Wilson. The event will be held at the Polish Falcons with refreshments provided by Lynelle Schloerb. Please note the time, the meeting will begin at 2pm.

The 2020 outdoor season begins!

This event is cancelled. May 24th, Mike Mesi and Ken Knoll will host the Rust Buster. Mike and Ken have arranged for an Erie Canal Cruise on the Lockview VI, a 75-foot double-deck Mississippi style stern paddle wheel vessel, followed by a Canal-Side Banquet. More details to follow.

Hershey—The Early Years! Part 4.

By Bob Morris, March 2018

1975. I was getting further into the '37 Cadillac and as I did the laundry list of parts I would be looking for was really getting long. We planned on leaving on Tuesday for Hershey so that I would have Wednesday through Saturday, four days to chase down the parts and do the car show.

The '67 Ford Station Wagon was already equipped for towing so towing the pop-up tent camper was not an issue. The trip down was fine and we had our usual space at Hershey Highmeadow and the guys from Indianapolis showed up, so we all had a great time for the next three days. By this time the normal procedures were for me to go to the flea market and Joyce would take the car and go touring in the local area looking for fabric shops.

Then along came Friday night. It started to rain and it kept on raining throughout the night, and at times it was quite heavy. On Saturday morning when I got up it was still raining. I pulled on my clothes and my shoes and

This event is now cancelled. June 14th, is our annual car show at the Elma Village Green Elma, NY. More details to follow.

The following events are pending.

July 12th, Joe and Linda McCaffery will host the summer picnic at their home in Pendleton, NY. Mark Brylinski will be planning our tour. More details to follow.

August 2nd, Dan O'Conner with host this event at the Batavia Downs Racetrack. This will be a combined event with the Model A club. Get ready for some exciting horse racing, gaming and great food. Details to follow.

September, this event is being planned, details to follow.

We need volunteers, helpers and ideas for club-sponsored events. If you are interested in sponsoring, co-sponsoring or helping out at an event, please contact Lynelle Schloerb or Chuck Weimer.

Chuck Weimer Activities Co-Chairmen

stepped out of the trailer into at least 2" of water running under the trailer. "Houston, we have a problem!" Needless to say it was apparent that we would have to close up and move out. Our space in the camp ground was right down by the creek and it did over flow later that day.

I did acquire and find a lot of parts for the '37 and maybe Hershey '75 ended on a wet note, but it was nothing compared to Hershey '76.

Till next time!

LERs behind the scene Heros!

What is a quilter to do when faced with self-quarantine and hundreds of yards of fabric? If you guessed make face masks, then you guessed correctly.

Del and I had just returned from Florida in mid-March when the stay at home order was put in place. The upcoming April quilt show that was scheduled for Del's quilting guild had just been canceled. The group decided to reroute their sewing energies to good use making face masks for friends, nursing homes, etc.

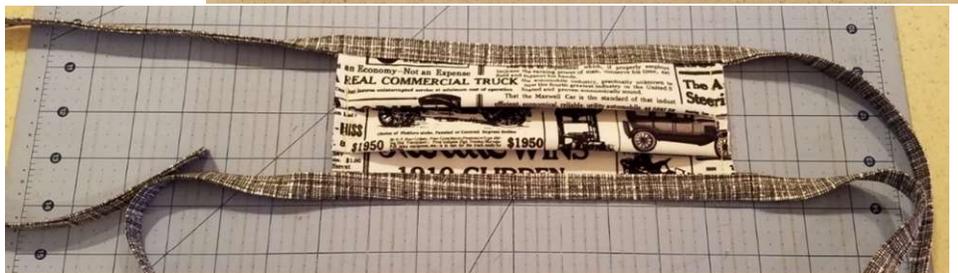

Del went through her stash of fabric which encompasses several dressers and a closet to find material to make masks with. (For those of you who do not know the meaning of "stash" – it means a pile of varying sizes of fabric, set aside for future undecided projects. This stash seems to grow larger faster than it grows smaller.)

One such fabric that Del discovered in a dresser drawer pictured very old cars and trucks. (If you look closely, perhaps you can determine the year and make of the vehicle in the picture.) Cutting the fabric into 6" x 9" rectangles was the first step. Sewing ties on was the next step. Due to the current shortage of elastic in the world as many sewers took to making face masks, cloth ties were fashioned.

Of the approximately 100+ face masks Del has made thus far, the antique car mask might be seen on the face of a member or two from our car club if you look closely.

(As of mid-April, Del's guild members have made over 1000 masks.)

Dennis Upton

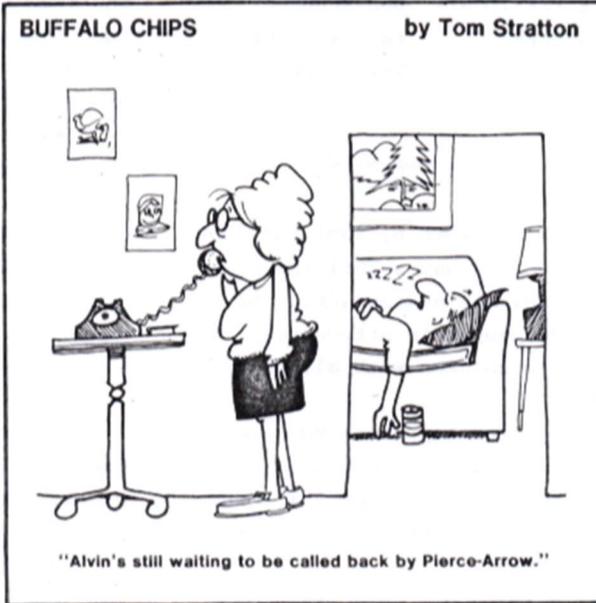

Sue Reville is doing her part in making masks. So far, she has done over forty masks. She has given them out to friends and family as needed.

Way to go, Ladies!

For all the Chevy people:
From Wayne Drumlins
Region March 1985

Just for fun, try to answer as many of these questions as you can to test your knowledge of Chevrolet history and related trivia. Please do not peek at the answers, even though your answer may be on the tip of your tongue, until you have read all the questions.

- 1) In what year did Chevrolet first introduce a V-8 engine?
- 2) In what year did Chevrolet first introduce a six-cylinder engine?
- 3) What Chevy model is also the name of an African antelope?
- 4) In what year was the first Chevrolet produced?
- 5) What model Chevy is named after a part of the principality of Monaco?
- 6) In what year did Chevrolet first sell over one million cars?
- 7) Which rock star sang about a Chevrolet in his hit "Thunder Road"?
- 8) General Motor's 50-millionth automobile was a Chevrolet Bel Air Sport Coupe. In what year was this car built?
- 9) In what year did Chevrolet build its first truck?
- 10) Chevrolet called its 1928 models the "National Series." What was the series name for the 1929 models?
- 11) What model Chevy was the focal point of Jan and Dean's hit song "Dead Man's Curve"?
- 12) In what year did Chevrolet Motor Company join General Motors?

From Dec 1984 "Shuffle off to Buffalo" National Meet. Tom Rosenbusch & Lon Wilson shot the same picture.

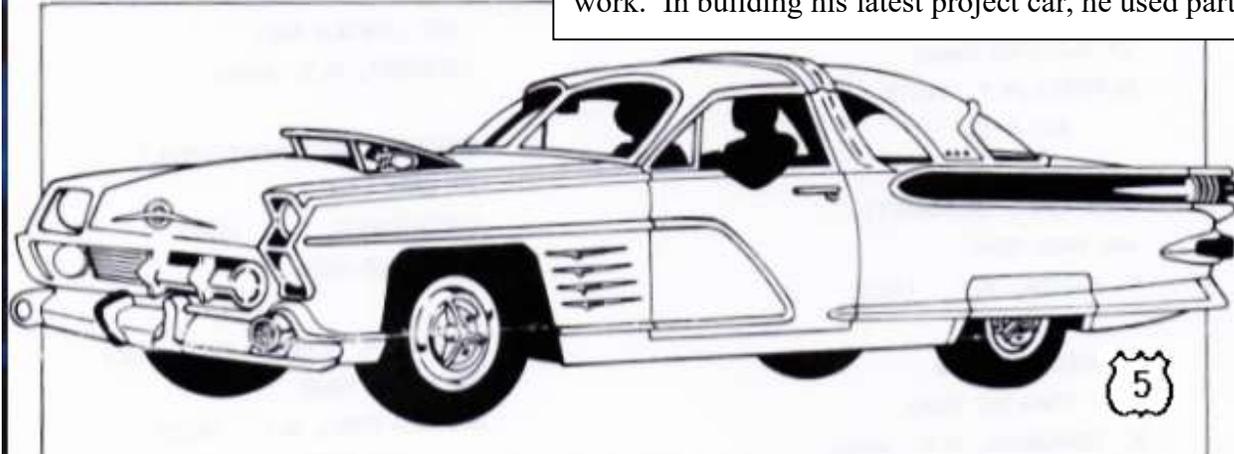

Below: An unidentified gentleman, Jeff Cryan, Tim Cryan, Ray Johnston and Ray Rosa

From January 1984 – Wonder what happened!

FOR SALE: Volvo 1972 1800ES sports wagon. Interior burned, no exterior damage. Body and mechanical excellent. \$3000. or best offer.

My uncle Jack, Ace Auto Wrecker's chief mechanic, just doesn't like to throw things out. For years he's been saving car parts nobody else knows what to do with. Given his gift for making things fit, he could probably put an Isetta door on a Gullwing Mercedes...and make it work. In building his latest project car, he used parts from the Fifties,

Automobile Puzzle

Sixties, and Seventies. And it looks like he's built himself a real cruiser. He cannibalized 15 cars to make this beauty. How many cars you spot? From June 1986

This is from the AACA Museum newsletter Reflections, Spring 2020, that recently came to our house.

Celebrating the 'Age of Aquarius'

Through April, we're celebrating a generation of automotive creativity and color. Join us for a revival of the '60s and '70s with "Age of Aquarius."

The thought of "flower power" instantly brings to mind psychedelic VW Buses and Beetles. The exhibit presents the most notable VW of the era, the "Light Bus," of Woodstock fame. Artist Dr. Bob Hieronimus, who painted the original '63 Volkswagen Microbus, recreated his icon, which brings the spirit of Woodstock to the Museum. Plus, the "Waltzing Matilda" Beetle adds more early '70s flair.

The desire for bold and bright cars didn't stop there.

Chrysler introduced cars with High Impact Paint (HIP) colors in the summer of 1969. The names "Plum Crazy," "Go Mango," "TorRed," "Sassy Grass Green," and "In-Violet" distinguished the muscle cars of the time. Other car companies followed with their electric palettes. The colors of Mopar are on full display. Also, see AMC's "Big Bad Orange" AMX.

The "Age of Aquarius" valued individualism, and the cars declared their independence with distinct shapes and styles. The exhibit spotlights unique and rare examples, including an AMC Gremlin with Levi's interior and a Barracuda sporting a floral "mod top."

The Light Bus at the Museum

"Light" the Woodstock Bus is on display at the Museum, but the current closure prevents many from seeing it up close. You can still see the bus at the Museum, albeit virtually, Museum Marketing and Communications Director Nancy Gates documented the vehicle's arrival. The Woodstock Bus was a main attraction of the "Age of Aquarius: Cars of the Counter Culture and Beyond" exhibit. See the "Light" bus video and a gallery of exhibit photos: www.AACAmuseum.org/exhibit/age-of-aquarius.
