

PRESIDENT'S MESSAGE

CLIFF'S NOTES: If you missed August's Double Dip Sundae Tour, you missed one of the biggest events of the summer. Yes, the good summer food, tasty ice cream treats and a scenic cruise through the country were all a given. The day was sunny and bright, but the stage was set for something special.

As all the cars pulled in, Cliff lined them up according to the blacktop stripping, row by row. All the cars were facing toward the North end of the Plaza. What was he staging? As more people arrived, their greetings created the perfect distraction. For just 50 yards in front of everyone, there was a mysterious car under cover and hiding in plain sight. Few people gave it a second thought. After everyone received the route instructions and restaurant discount tickets. Cliff announced that "Today was a good day, to have a good day." He briefly apologized for the delayed Phantom Jaguar unveiling and the too New Hotrod Honda. So, as the story goes, he shipped the Hotrod Honda to Chip Foose in California for a retro overhaul. It needed classic muscle lines, more vroom and more chrome to fit in.

Drum roll please... As the cover was peeled back everyone gasped as the New Hotrod Honda was revealed. How did he do it? Cliff was a pretty good auctioneer last month, but he's no magician. Yet, there it was a shining example of Classic Muscle.

In fact, it looks like a 1970 Chevrolet Chevelle Super Sport SS396 in Cortez Silver, black vinyl top, bucket seats and a 4-speed. And that's exactly what it is! The Hotrod Honda was not chopped up, no way. This day revealed Cliff's New Hotrod Chevelle to finally fit the club's Classic mold and then some. Stayed tuned for next month's chapter, "Love at first sight", at the Wurlitzer Monday cruise night.

Preview: They only dated 4 weeks before they got hitched!
