PRESIDENT'S MESSAGE

Cliff's Notes: "See the USA In a Chevrolet" Does anyone remember that famous Chevrolet advertising jingle? I do! And that was my theme song for the LER Southern Tier Tour. The lead cruiser was none other than my 1970 Chevelle SS. Many thought this car was going to be a garage, Queen. But you can bury that rumor now. Fact, this was its first road trip of any kind in 47 years. Exactly 150 miles was added to the odometer this past weekend. Even at 10 miles to the gallon it was well worth the fun. I will have to admit that I parked it right under my 2nd floor room window. And slept with one eye open – yep.

We traveled scenic routes, then enjoyed guided tours at the National Warplane Museum and Mt Morris Dam. Then we took a club photo in front of the Five Arch Stone RR Bridge. Talk about food; two great lunches, one elegant dinner and a tasty wake up breakfast. After dinner we took a short walk in to town for some homemade ice cream. OH yes, I must give the Country Inn & Suites Hotel a full Five Stars. Top it all off with sunny summer weather and great club fellowship. See our photos in this month's Sidelight. Let's dream up another cruise for next year.
